

SED is the Austrian partner of the French company [SAFT](#) founded 1918.

SAFT is one of the world's largest manufacturer of battery systems and produced with about 4100 employees in 14 factories batteries worth over € 759 million (2015).

Since June 2013 the production of sealed NiCd and NiMH batteries was taken over by [ARTS ENERGY](#) (Factory Nersac / France) with more then 300 employees.

We offer :

- Primary batteries (Lithium Li- SOCl₂, Li- SO₂, Li- MnO₂ technologies; silver based technologies AgCl MG , Ag - Zn, Al - AgO)
- Rechargeable batteries (Nickel technologies Ni-Cd, Ni-MH, lithium ION Technologies, Nickel Capacitor)
- Matching Charging Systems

for the applications

- Aviation
- Defense
- Emergency Lighting Unit
- Grid & Renewables & Off-peak
- Industrial Standby
- Marine
- Medical
- Mobility
- Oil & Gas
- Professional Electronics
- Railways
- Space
- Telecom
- Utility Metering
